Software installed or attached to this product
In granting the customer the right to use
It is a condition of use that you agree
"Software use conditions" are stored in this product.
Please follow the steps below.
Press the (Home) button until you feel a click
Then, "Settings"-> "About this device"-> "License agreement"
Tap in order.

About warranty

- Be sure to fill in the required items on the warranty card and read the contents carefully.
  Sai. After that, please keep it in a safe place.
- When requesting repair, be sure to have a warranty card ready.
  * If the product breaks down under normal use within the warranty period, it will be free of charge.
  I will repair it.
- Even within the warranty period, if you do not show the warranty card, or if there is a natural disaster
  In case of failure due to unreasonable use, repair for a fee
  Become. Please note (For details, please see the warranty card.
  Sai).
-Performance parts for repair of this product (essential to maintain the function of the product)
The minimum retention period for required parts) is 5 years after the end of production.

About life-long parts

- This product contains parts with a limited life.Lifetime parts
  As the usage time elapses, wear and deterioration progress, and the operation becomes
  This product may be unstable for a longer period of time as it may become unstable.
In order to use it, it needs to be replaced at a certain period of time.
  Become.
- As a guideline for when to replace parts with a limited life, frequency of use, environment of use, etc.
  It depends on the usage, but it takes about 8 hours a day and 25 days a month.
  It's been about 5 years. This period is just a guide,
  We do not promise that it will not break down within this period.
No. Also, depending on the usage conditions, such as continuous use for a long time,
Parts may need to be replaced earlier than this standard period.
There is.
- Warranty when replacing parts with a limited life due to wear or deterioration
  You will be charged even during the period. In addition, the exchange of parts with a limited life
  Replacement is by repairing each performance part for repair specified by our company.
It will be replaced.
- Power saving so that this product can be used stably for a longer period of time.
  We recommend using the function. Also, if you use it for a certain period of time.
  If not, turn off the power.
-<List of main parts with a limited life>
-Built-in memory

About consumables

- Generally, a battery pack has a life after charging and discharging 300 to 500 times.
  It will be. (It depends on the temperature conditions and usage environment.)
- The replacement core of the stylus pen maintains its performance / function.
Therefore, it needs to be replaced in a timely manner. If you want to replace it, you can purchase new products by yourself regardless of the warranty period. This product is designed for continuous use for 24 hours or more. Not available.

Tap Settings→ Credentials.

About wireless LAN

About 5GHz band channels

Models equipped with IEEE 802.11 a / b / g / n / ac compliant wireless LAN can use the following channels in the 5 GHz frequency band:

- W52: 36 (5.180MHz) / 40 (5.200MHz) / 44 (5.220MHz) / 48 (5.240MHz)
- W53: 52 (5.260MHz) / 56 (5.280MHz) / 60 (5.300MHz) / 64 (5.320MHz)
- W56: 100 (5.500MHz) / 104 (5.520MHz) / 108 (5.540MHz) / 112 (5.560MHz) / 116 (5.580MHz) / 120 (5.600MHz) / 124 (5.620MHz) / 128 (5.640MHz) / 132 (5.660MHz) / 136 (5.680MHz) / 140 (5.700MHz)

When using the 5GHz band, the above channels can be used. Communication is possible only with line LAN products. The 5GHz band cannot be used for ad hoc communication. When using the 80MHz, 80MHz bandwidth mode, the above channel is used by bonding flannel.

About radio frequency

In the frequency band used by this device, industries such as microwave ovens, science, transfers used in factory production lines as well as medical equipment, on-site radio stations (license-required radio stations) and identification for moving object identification, low power radio stations (radio stations that do not require a license) and amateurs in operation.

1. Before using this device, nearby premises radio for mobile identification, low power radio stations and amateur radio stations make sure it is not used.
2. In the unlikely event that this device is used for a premises radio station for identifying mobile objects, please contact us. If a case of harmful radio wave interference occurs, it will be used promptly. After changing the wave number or stopping the emission of radio waves, please contact us. Please contact the contact point or the place of purchase to contact the interference.

Measures to avoid (for example, do not install a partition)

This terminal uses the 2.4 GHz band.

2.4: Represents radio equipment that uses the 2.4 GHz band.

FH / IX / DS / OF: Modulation method is FH-SS, other methods, DS-SS, OFDM indicates that it is OFDM.

4: Indicates that the expected interference distance is 40 m or less.
8: Indicates that the expected interference distance is 80 m or less.

Avoidable

This product is a Japanese domestic specification, overseas maintenance service and support is not provided by us.

This product is designed for domestic use. Overseas customers are responsible for their use.

I hope.

This product is a specified currency based on the "Foreign Exchange and Foreign Trade Law" that includes things. Therefore, when exporting this product, you may need permission under the law.

About the use of this product for high safety applications

This product is for general office work, personal use, home use, and ordinary industry. It is intended for general use such as for high safety.

Life contact: Refers to applications that pose a serious risk to the body.

- Nuclear reactor control, aircraft automatic flight control, navigation in nuclear facilities
- Air traffic control, operation control in mass transportation system, life protection
- Missile launch in medical equipment and weapons systems for possession

About data backup

Data recorded on this product (basic software, applications) for maintenance of software, you can back it up by yourself. Take necessary measures such as uploading. Also, dependent repair
Even if asked, there is no guarantee of data integrity. So, take necessary measures such as backup by yourself in advance.

Please go. However, we take all responsibility for damages and data preservation / restoration. Please note that we cannot take responsibility (important data is always available). It is recommended to have a backup.

Precautions when using:
It describes what should not be done. Please be sure to read it. Describes things related to the operation. Please read if necessary.

■ About touch panel
● For touch panel materials to achieve thinness and light weight
I'm using a rustic film. For this reason,
You may see something like distortion when exposed to light
However, this is not a malfunction.
● Do not press the touch panel strongly. Screen screen
It may cause a malfunction or malfunction.
● When used in a cold place, the image looks like a tail.
It may occur, but it is not abnormal.
● Stickers and sheets on the touch panel (commercially available protective fixtures)
If you put a rum or a peep prevention sheet, etc., you can touch it.
The flannel may not work properly.

■ About the stylus pen
● Be sure to use the attached pen to operate the touch panel of this product.
Please use. Also, for other purposes, it is attached
Do not use the pen.
● Apply excessive force to the pen tip and pen buttons / switches
Please do not.
It may cause malfunction, malfunction, or wear of the pen tip.
● Do not bend the pen or hold the pen tip pressed against it.
Please.
It may cause malfunction or failure.
● Do not use a damaged pen.

■ Handling of touch panel and pen
You can operate with the pen with your hand on the screen
to come. Therefore, you can leave the pen on the screen or the pen is close.
The touch panel operation with your finger will be disabled.
So.

■ About carrying
● When lifting or moving the product body
Grasp it with both hands and do not drop it.
● When carrying the product body, hit or drop it
please do not.
Put it in a bag to protect it from shocks and vibrations.
● The key to putting this product in a bag or bag
The corners of any protrusions or hard objects do not hit the body directly
Please be careful.
When a strong force is applied to the screen display, the display element inside this product
May be broken and display may be defective.

■ Handling of this product
● Do not throw this product or use it in an unstable posture.
Please.
Dropping it may cause injury or malfunction.
● Be careful not to get it wet. This product is waterproof
It is not a specification. Pay particular attention to the following cases.
  • Use in rainy, snowy, or humid places
  • Use in sweaty situations
Touching it with wet hands may cause it to get wet.
● Do not use in places where condensation may occur.
Condensation is a phenomenon in which moisture in the air becomes water droplets. This product
From a place with a low temperature to a place with a high temperature, or a place with a high temperature
If you move from a place to a place with a low temperature, the inside of the device of this product
Condensation may form on the part. Condensation has occurred
Using this product may cause a malfunction.
When the device of this product is moved, it will be about the same as room temperature.
Please wait for it to turn on.

■ About temperature rise
When the product is being charged or used for a long time, the temperature of the main unit becomes warm.
The degree may increase, but this is not a malfunction.

■ About the installation location
● Do not place in a hot place.
  • High temperature of this product, such as near a fire or in direct sunlight.
Do not use, store or leave in the following places. Built-in
Battery burns or liquid leaks, resulting in injury or injury
Which may be the cause.
  • A place exposed to direct sunlight for a long time or near a heater
Very hot (60 °C or higher) or humid
Please avoid using or leaving it in the place. Especially close the windows
Direct sunlight while leaving it in a car that has been cut off
The lens effect of the window glass further promotes overheating.
This may cause a malfunction such as deformation of this product.
Please be careful as it may cause a problem.
● Do not install in places with a lot of oily smoke, steam, humidity, and dust.
Please come.
● Near magnetic objects such as magnets and speakers
Please do not install.
● Do not install in a place that exceeds the range of the following temperature and humidity conditions.
Please come.
  • Operating: Temperature 5 to 35 °C / Humidity 20 to 80% RH
  • Non-operating: Temperature -10 to 60 °C / Humidity 20 to 80% RH
However, there should be no condensation during operation or non-operation.

- USB cable
  - Be sure to use the attached USB cable.
  
  For use other than the attached USB cable, performance and performance and safety cannot be guaranteed.

- About Wi-Fi function
  
  The Wi-Fi of this product is used for document transfer with a PC.
  Will be. Displaying a home page on the Internet
  You can not.

- About NFC usage environment
  
  If the material of the desk etc. on which this product is placed is metal, a FeliCa card or other similar device may not function properly.
  If it doesn't work, the desk etc. should be used a few centimeters away from such metals.

- About QUADERNO PC App
  
  Please connect your computer to the Internet.

- About charging
  
  - Charging time varies depending on the battery usage status.
  - Even if the battery is fully charged, the usable time is half the normal time.

  When it reaches the limit, it seems that the battery has deteriorated.
  Will be. Contact the inquiry window or the place of purchase
  
  Please talk.
  - Do not touch this product while charging for a long time.
  
  If you leave your skin in contact for a long time, you will get a low temperature burn.
  It will be the cause. Also, even from the top of your clothes, you can touch it for a long time.

  If left unchecked, it may cause low-temperature burns.

- About supported file formats
  
  This product can display data in the following file formats.
  However, depending on the file size and data format, it may be displayed.
  May not be possible. File format expansion in parentheses
  This is Hariko.

- PDF (.pdf)
  
  It conforms to the PDF 1.7 specifications.
  PDF with Adobe extension level 1-8 extensions
  Does not support.

  **Precautions when there is a risk of lightning strike**

  If there is a possibility of a lightning strike, the USB connected to the computer
  We recommend that you unplug the cables. Also, thunder
  If it starts to ring, do not touch the main unit or the USB cable.

  1. For safety, we recommend installing a lightning arrester.
  2. There are two types of lightning strikes, direct lightning and guided lightning, but because of the main body
  Obstacles are mainly caused by induced lightning. Powerful to the surroundings due to lightning
  It occurs when an electromagnetic field is created and invades from electric wires or telephone lines.
  It is guided lightning. In the case of this product, invitation from the USB cable
  It is necessary to take measures such as pulling out.
  
  Direct lightning can protect the object by guiding the lightning with a lightning rod.
  However, I received a very large lightning that exceeded the tolerance of the arrester.
  In some cases, it may not be possible to protect this product even with a lightning arrester.

  There is.
  Failure of the product itself due to a lightning strike will be repaired for a fee even within the warranty period.
  However, repair costs can be high depending on the failure situation
  Please note that it may happen.
